- Discuss what led you to enroll at the Academy of Art University
- You may also include other information that seems appropriate or relevant to your work as a composer/sound designer, such as (though much of this may be included in your resume):

- Relevant Work experiences
- Relevant Educational experiences
- Relevant Personal experiences You want to be sure to write your autobiography in a concise and succinct manner that is as engaging as possible, and provides proper background and context for the rest of the written presentation.

RESUME

You will need to include a formal resume in your proposal. This is a 1-2 page professional document that lists your work experiences, skills and education. In addition, your resume provides the reader with your contact information and a list of past experience, including:

- Name
- Address
- Phone number
- Email and Website
- Recent examples of your work as a music composer or sound designer, etc.
- Educational background (beyond High School but limited to the last 10 years)

PROJECT SUMMARY

The Project Summary is the focal point of the written presentation. In this section of the document, you will relay the details of your completed projects to the Committee. You will want to address the following in an articulate and well thought-out manner **for each of your submitted projects**:

- Describe background information on your topic and how you came about choosing this project
- Describe any challenges you encountered with the project and how these challenges were overcome
- Describe what you feel you have learned from the project & your methods of working
- Include your job title on this project (Composer, Sound Designer, Music Editor, etc.)

There is no specified length for each Project Summary. Though it is always a good idea to be concise in your wording, this section should be as long as it needs to be to clearly and thoroughly articulate your ideas.

INFLUENCES

The Influences section in your proposal needs to identify and describe your artistic influences in making the project. You should identify at least three artists as influences. You will want to identify:

- Who your artistic influences are
- What part of their work inspired you
- How their work has influenced your work
- Include examples of work created by your influences

Though this section does not need to be long, you will want to be specific in describing how and why these artists have influenced/inspired you and/or your work. Your influences do not all need to be music composers or sound designers. Your work is often inspired by other mediums. Examples of artists work must be included.

STATEMENT OF FUTURE PLANS

The Statement of Future Plans should identify the following:

- Identify your professional goals, including what steps you have taken toward meeting these goals.

SECTION 5: FINAL REVIEW PROJECT MEDIA CHECKLIST

Ensure that you follow these steps for each of your projects.

- Work must be in the following format:

Quicktime Movie File (.MOV) with final mix soundtrack (48kHz 16bit audio).

Export your Quicktime .MOV file as 720P – this will result in the H.264 compression codec that maintains quality but results in a small file size.

- Each Project must be fully edited and mixed.
- For video games, it is **not sufficient** for the committee to have to play the game; instead you must capture game play and submit a video (.mov) file.
- Each Project should be no longer than 4 minutes. If the project is longer than that time, cut and edit your submission to include the best part of your work.
- There is no minimum running time. For example a 30 second commercial is fine.
- You do not need to be responsible for all of the audio on each project, but you should have at least one identifiable title with respect to each work, such as:
 - Composer
 - Sound Designer
 - Music Editor
 - Etc.

SECTION 6: FREQUENTLY ASKED QUESTIONS

Q. How many projects do I need to submit?

A. You should submit 3 or 4 projects. If all are very short, such as 30 second commercials, then you might want to submit 5. You must submit a minimum of 3 projects; the maximum is 5.

Q. How many pages should the Written Project Summary be?

A. There is no specified length for the completed Written Project Summary. There are some sections that have limitation of length, but the main part of your proposal does not have a limit. The written Report should be thorough in describing all aspects of your project, but you also want to think about how you can be concise and avoid redundancy of information in the content.
