

## REDUCING PDF FILE SIZE

You will need to upload a 50MB or smaller PDF to your student home page. If you find your PDF is too large it will not upload or be accepted. There are two things you can do to reduce the file size of your PDF:

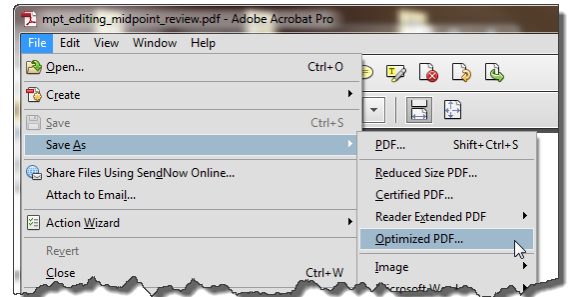

### Save your file as a Reduced Size PDF... through Adobe Acrobat:

1. Open your document in Adobe Acrobat.
2. **File** → **Save As** → **Reduced Size PDF...**
3. Leave "Make Compatible with" as "Retain Existing"
4. Save your file to your chosen location.

Alternatively, if you find the graphic quality too low, try using the **Optimized PDF...**

1. Open your document in Adobe Acrobat.
2. **File** → **Save As** → **Optimized PDF...**
3. Change **Compression** to **Medium** or **Lossy** and click **OK**
4. Save your file to your chosen location

### Reduce the size of your graphics before you import them into your document:

See the *Graphic Resizing in Photoshop* document located here: [http://media.academyart.edu/gradshowcase/assets/graphic\\_resizing.pdf](http://media.academyart.edu/gradshowcase/assets/graphic_resizing.pdf)
